H. McKENZIE LIMITED.

HISTORICAL SKETCH.

The Business of H. McKENZIE LIMITED may be traced back for 17 years, when in 1891 Mr. Hepburn McKenzie established himself as a Cedar Trader in Suez Street, Sydney. Shortly afterwards he secured a site in Pyrmont Street, Pyrmont, and progressed to the extent of installing a small Steam Saw-Mill. Here, for upwards of seven years, the business continued to expand, until in 1900 he removed to Abattoirs Road, Pyrmont, erecting the FIRST AMERICAN LOG BAND SAW introduced into Australasia, and commenced to develop the import of New Zealand Timbers, which has grown till this Company NOW OWNS AND OPERATES KAURI AND WHITE PINE SAW-MILLS AND BUSHES IN NEW ZEALAND. A large Storage Yard on the opposite side of Abattoirs Road was next secured, and the industry prospered. A very DISASTROUS FIRE, however, on February 22nd, 1906, destroyed the whole of the fine Log Band Saw Mill and Plant, leaving only the large stock in the Storage Yard opposite to work upon. The question of rebuilding New Mills was considered. A WATER FRONT (974 feet) SITE (5 acres) at GLEBE ISLAND, WAS SECURED, and the business of H. McKenzie converted into a large Public Company (for which the increased Capital was immediately forthcoming).

Mr. McKENZIE, in the middle of 1906, toured America and Europe to secure the very complete Self-Generating Electrical Plant, Log Band Saws and Milling Machinery, with which the substantial Glee Island Mill Buildings were installed and opened in June, 1907. Since that date a second direct-coupled Engine and Dynamo, additional Band Re-Saws, and JOINERY WORKS have been erected, to provide further facilities for coping with increasing business.

We invite our clients' inspection of our Works.

An extension of the HARDWOOD BRANCH of our operations may be found at OURIMBAIL, N.S.W., Northern Line, 57 miles from Sydney, where Steam Saw-Mills alongside the Railway Station treat the Logs brought in by our Bullock Teams from the surrounding Bushes, and from whence orders are cut and trucked to Sydney or other Inland Stations.

CASE FACTORY—We have now decided to establish on up-to-date Box-Making Plant at our old Pyrmont Yards, Abattoirs Road, and with the large stock of Dry Timber which we hold, we are confident we can give our customers entire satisfaction in all kinds of Cases for Butter, Soap, Caudiments, Wine, Onions, Fruit, etc.

We commend our unrivalled facilities for supplying Building Materials with promptitude, and now await your valued enquiries and orders.

When ordering from this Catalogue kindly give the number of the article required; also exact size and quantity, with full forwarding instructions.

No order too small for our close attention; none too large for us to cope with.

For Prices of Stock Lines and Terms see our Monthly Price Lists. Special Quotations given for other Lines.
